SoftLine² – Upgrades

More automation and profitability
for your car wash

 **WashTec**

Automated Prewash: Same quality, same reliability – more flexibility!

Technical solutions, unique service and innovative digital tools: WashTec supports operators in running their car washes in an efficient and profitable way – economically, flexibly and future-proof.

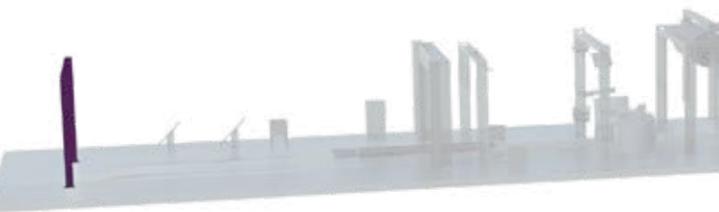

Semi-automated Prewash

Package 1

- Self-sufficient pre-spray arch
- Motion detector

Performance

Self-sufficient pre-spray arch via motion detector: Initial sprinkling of the vehicle before the manual prewash. The paint surface can be cooled and the dirt dissolved at an early stage.

Your advantages:

- Increased and consistently high pre-cleaning performance
- Relief or elimination of the subsequent, manual prewash

Manual prewash

Package 2

- Double ceiling boom
- Pre-spray unit
- Lance holder
- Pre-wash container
- Dosatron
- HP prewash module

Performance

Ceiling boom, HP and pre-spray lance as well as pre-wash tank and supply technology: efficient pre-washing, customised and precisely tailored to your location. Manual pre-wash and automatic main wash interlock perfectly!

Your advantages:

- Consistently high throughput at peak times
- Manual pre-washing effort in line with the desired business model
- Guided pre-wash process

Performance & Show

Extended chemical application

Package 3

- Rim power foamer
- LED lighting
- Front chemical sprayer, above ground
- Rear-mounted chemical sprayer, above ground
- Hydrominder
- Combined bow
- FoamSensation
- Chemical pre-sprinkling

Performance

Rim power foamer and front and rear chemical sprayer: efficient application of special chemicals in heavily soiled areas, regardless of the pre-wash. The show for the performance: FoamSensation – the right appearance at the entrance. FoamSensation covers the vehicle with a closed, colour-illuminated foam curtain.

Your advantages:

- Consistent and high quality in the application of rim chemicals and in the cleaning results of the front, rear and wheels
- Reduced dependence on manual pre-washing of the rims – especially in combination with the wheel-sill wash packages
- Visualisation of additional services leads to higher average prices
- Highly attractive thanks to the targeted use of LED effect lighting

Wheel sill wash – space-optimised

Package 4

- Rim power foamer
- LED lighting
- HP wheel sill wash, HighTower
- High-pressure pump

Performance

Rim power foamer: efficient application of special-chemicals to the rims – irrespective of the pre-wash. HP wheel and sill washer: rotating TurboNozzles for intensive high-pressure washing in the wheel and sill area. Low space requirement, therefore easy to retrofit.

Your advantages:

- Consistent and high quality when applying rim chemicals and high-pressure cleaning of rims and sills
- Reduced dependence on manual pre-wash performance of the wheels
- Visualisation of additional services leads to higher average prices

Wheel-sill washing – high pressure and contour roller

Package 5

- Free-standing contour roller
- HP side washer BPS
- High-pressure pump

Performance

Contour roller, free-standing in combination with HP side washer Side washer: powerful cleaning of the lower vehicle area using high pressure and brushes.

Your advantages:

- Highest mechanical cleaning performance of the lower vehicle sides
- Reduced effort in manual pre-washing
- Compensation for qualitative fluctuations in the manual prewash

WashTec – your strong partner for the future

WashTec is the world's leading provider of vehicle washing technology and has been a reliable partner for car wash operators for 60 years. From the initial idea to successful implementation: WashTec supports you along the entire value chain with advice, technology, financing and service from a single source.
