

# Offboard tank solution

Re-thinking chemical storage

SIMPLE & SECURE

# Intelligent refilling and dosing system

## For concentrated washing chemicals from AUWA

Create more space in your business premises, eliminate blocked work routes and store your AUWA chemicals professionally and safely - with the intelligent offboard tank solution from AUWA.

The offboard tank solution from AUWA is available in various sizes and can be customised to your individual requirements: The 50-litre tank is available in a slim design and can be placed on a suitable drip tray. A 100-litre tank with a corresponding tray is also available for large consumers.

### Your advantages:

#### Fast & simple

- Easy installation
- Easy refilling
- Easy to clean

#### Saves time & money

- Fast refilling without having to hold transport containers
- Extremely space-saving
- 100% product utilisation, no waste of chemicals

#### Secure & compliant

- HSSE-compliant storage
- Splash water protection thanks to low filler neck
- Large overhang of the drip tray
- Fill levels always in view thanks to 3D scale
