Sustainable and clean

Shine in performance and eco-friendliness with AUWA washing chemicals

Shine with AUWA Green Car Care. The best in washing performance and eco-friendliness

AUWA is the market leader for washing chemicals in Europe with over 50 years of experience. All AUWA formulations meet the strictest green criteria and exceed the legal requirements by far. And the best thing about it: the perfect tuning with the WashTec system technology ensures the best paint protection and brilliant results.

Car washing today has to be sustainable and environmentally friendly. Green Car Care is a completely innovative product range – sustainable along the entire value chain.

- › Environmentally friendly and easily degradable products
- › Avoidance of colourants, polyphosphates and microplastics
- › Environmentally friendly production processes
- › Highly concentrated for optimised consumption
- › Zero-waste strategy
- › Eco-friendly transport packaging

Sustainable and resource saving

Thanks to efficient water recovery

Save with efficient water recovery

With innovative solutions from WashTec, you can reduce your fresh water consumption during vehicle washing by up to 90% by recovering the service water. This in turn enables you to save money whilst actively helping to preserve the environment.

Fresh water consumption (in litres per wash)

180 L to 220 L
Hand wash

180 L to 220 L
High pressure gantry
without water recovery

120 L to 220 L
Brush gantry **without**
water recovery

14 L to 30 L
Brush gantry **with**
water recovery

AquaPur Modular

Numerous options for perfect water recovery.

Full flexibility thanks to modular design – the right solution for every site. The modular system allows the installation to be individually adapted to the site and to respond easily to increased wash volumes or new units.

Sustainable service

Benefit from the original manufacturer service – remotely and on site!

This is what our customers say:

“ Now I no longer have the problem of one person blaming the other for mistakes. With WashTec, I have exactly one contact person. And they also take responsibility if something is not right. ”

“ It is only perfect when everything fits together ... and WashTec offers me that! ”

Benefit from the original manufacturer service – 1 contact person, 100% reliability

As a full-service partner with over 600 of our own service employees, we ensure that all components are always perfectly coordinated. From repair to routine maintenance, chemical supply and visual facelifting. Benefit from the industry's closest service network – for unbeatable business.

» **Your benefit:** maximum availability with minimum downtime.

WashTec – a global leader for your success

WashTec is by far the world's leading provider of innovative vehicle washing solutions.

Our promise is: We offer you maximum success with maximum sustainability. Our products, processes and services are consistently aligned and coordinated with this in mind.

Did you know that

... **every day** more than **2 million vehicles** are washed with WashTec systems?

... there are around **40,000 car washes worldwide**, which impress customers?
